Dear Mr. Degner

Attached is our submittal of the Notification of Hazardous Waste Activity Form for our St. Louis, MO Plant.

At this time, we have only a general analysis of the solid/waste we generate as a launderer/dry cleaner of garments, shop towels, uniforms, etc. This waste may or may not contain hazardous chemicals, and the quantity generated may fall well under your 1,000 kg. per month exemption. We are quite certain there are not any "acute hazardous" wastes in this waste. We are currently in the process of obtaining a complete chemical analysis of the solid waste at each of our branches from reputable testing laboratories.

When this study is completed, we may request withdrawal of an application under the exemptions listed in 261.3 or 261.5.

Yours truly,

AMERICAN LINEN SUPPLY CO.
